

127.0.0.1:8899

Full-Site SEO / GEO / AEO / AIO Audit

Executive Report

Overall Health Score	43.1/100
Pages Crawled	1
Pages Failed	0
High-Priority Occurrences	2
Total Finding Occurrences	21
Audit Date	July 10, 2026
Audit ID	seoaudit_e821c48aa3f01ec0

Pillar	Score	Status
Technical SEO	83.5/100	Good
Content Quality	99.2/100	Good
Security & Headers	79.4/100	Needs Work
Social / OGP	97.5/100	Good
GEO (AI Crawlability)	85.9/100	Good
AIO (AI Answerability)	97.5/100	Good

Methodology: crawled via curl_cffi Chrome-120 TLS impersonation (bypasses bot protection). Revenue-at-risk figures are model estimates (saturating exponential); not measured losses.

EXECUTIVE SUMMARY

Crawled 1 page(s) of http://127.0.0.1:8899/ - health score 43.1/100. 21 distinct finding types across 21 occurrences (2 high, 7 medium, 12 low priority URL hits). Top high-priority findings: Security: HTTP URLs (1 URLs); Links: Pages Without Internal Outlinks (1 URLs). 11 finding type(s) are auto-fixable by the repo-aware SEO fixer.

GEO: Missing RSS/Atom Feed	opportunity	1	100.0%	GEO	
Validation: Missing Favicon	opportunity	1	100.0%	TECHNICAL	

METHODOLOGY & LIMITATIONS

Crawl Method

Pages fetched via curl_cffi Chrome-120 TLS impersonation. Playwright browser mode used when system libraries are available; curl_cffi is the automatic fallback and handles most enterprise bot-protection layers.

Revenue-at-Risk Disclaimer (load-bearing)

How this figure is derived: $\text{share} = 0.35 \times (1 - e^{-(\text{pressure}/50)})$ applied to aggregate issue severity pressure. These are model estimates of proportional organic revenue exposure — NOT measured revenue losses. Do not present as measured losses.
